

**NOTICE**

**It is been observed that few students (Both day scholars & hostlers) reach the academic buildings very early in the morning. Their presence & movement in the academic buildings hampers the routine maintenance work viz. dusting, cleaning etc. of the class rooms & corridors by the maintenances staff.**

**In light of the above, it has been decided that no student shall be permitted to enter the academic buildings before 8:45 AM in the morning.**

**The same comes into force with immediate effect.**
